

## XXXVI International Seminar on Stability Problems for Stochastic Models

### Second Information Letter

XXXVI International Seminar on Stability Problems for Stochastic Models will be held in Petrozavodsk, Karelia, Russia from 22 to 26 of June 2020 under the auspices of the [Institute of Applied Mathematical Research](#) of the [Karelian Research Centre](#) of the [Russian Academy of Sciences](#) (IAMR KRC RAS), [Faculty of Computational Mathematics and Cybernetics](#) of the [Lomonosov Moscow State University](#), [Institute of Informatics Problems of the Federal Research Scientific Center "Computer Science and Control"](#) of the [Russian Academy of Sciences](#) and Moscow Centre of Fundamental and Applied Mathematics.

International Seminars on Stability Problems for Stochastic Models have a long tradition. They were founded by an **outstanding mathematician Vladimir Zolotarev** (27.02.1931–07.11.2019) in the 1970's. The seminars are attended by leading specialists in probability theory and mathematical statistics from all over the world and traditionally aim at bringing together people from Eastern and Western Europe to share their expertise, new results, exchange the ideas and discuss open problems. In this century International Seminars were held in Bulgaria, Hungary, Italy, Israel, Latvia, Norway, Romania, Russia, Spain and Poland. Previous four Seminars took place in **Perm, Russia** (2018), **Debrecen, Hungary** (2017), **Svetlogorsk, Russia** (2016) and **Trondheim, Norway** (2014).

#### Conference venue

Petrozavodsk, the capital of Russian Karelia, stretches along the western coast of a large and beautiful Onego Lake. The city is the largest University and cultural centre in the North-West Russia.

Karelia region is famous for its "white nights", the zenith of which falls on the days of the summer solstice – from June 20 to 22. At this time, night does not come here, the day lasts almost 19 hours, and the rest of the time is morning and evening.

The work of the seminar will be organized in the building of the [Karelian Research Centre of the Russian Academy of Sciences](#) (Pushkinskaya st., 11).

#### Registration and Abstracts

We would be very grateful if participants of the seminar will register and upload abstracts through [online registration system](#) on the [Seminar website](#) no later than April 1, 2020. **WE KINDLY URGE YOU TO DO THIS AS SOON AS POSSIBLE!**

After receiving the abstract and peer review, we will send to a corresponding participant an e-mail **confirmation and an invitation to the Seminar** (hard copies of Invitations will be given at the Registration desk).

#### Accommodation

**ATTENTION! Please, book your accommodation in advance as soon as possible because in June 2020 extraordinarily many guests are expected in Petrozavodsk for the celebration of the 100th anniversary of Republic of Karelia.**

For more detailed information on the recommended hotels, prices and discounts, please, check the section [Accommodation](#) of the Seminar website.

#### Visa information

**Foreign participants WHO NEED VISA SUPPORT should AS SOON AS POSSIBLE CONTACT the local organizing committee by an e-mail address [isspsm2020@krc.karelia.ru](mailto:isspsm2020@krc.karelia.ru).**

Information on Russian visa requirements can be found here:

[https://www.visatorussia.com/russianvisa.nsf/visa\\_requirements.html](https://www.visatorussia.com/russianvisa.nsf/visa_requirements.html)

## Excursion

Within the cultural program we organize a **tour to [Ruskeala Mountain Park](#)** ([some photo](#)).

The Ruskeala Park is one of the most amazing places in North Ladoga region. Its most popular tourist attraction is Marble Canyon, a mining monument dated back to the end of the 18th and beginning of the 20th century and put on the Russian Federation Heritage List in 1998. There are no other monuments in Europe such as the monument which looks like a hand-made "bowl" found in the marble solid, cut through by mine, gallery and entry systems.

Estimated tour duration is 12 hours.

For successful organization of the tour, please, fill the corresponding information in your [Participant Application](#) in the [Personal Account](#) **no later than June 1**.

## Personal Account

**ATTENTION!** Registered participants of the Seminar, please, check your Personal Account and make sure that you filled in all the fields in your [Participant Application](#) form!

## Accompanying publications

The Seminar is accompanied by three types of publications.

1. Each participant will be supplied by the book of Abstracts of the Seminar upon arrival and registration.
2. Proceedings of the Seminar will be published in three special issues of the "Journal of Mathematical Sciences". The details will be announced at the Seminar.
3. A special issue of the open access journal "Mathematics" (WoS Q1) dedicated to the memory of Vladimir Zolotarev is now being assembled. All the participants are welcome with their papers. For more information see [https://www.mdpi.com/journal/mathematics/special\\_issues/Stochastic\\_Processes\\_Theory\\_Applications\\_2020](https://www.mdpi.com/journal/mathematics/special_issues/Stochastic_Processes_Theory_Applications_2020)
